Book

LocalBusiness Schema	25 PTS	FOUND
Found. AI can identify your business as a local entity.		
Organization Schema	20 PTS	FOUND
Found. AI treats your brand as a verified entity.		
AggregateRating Schema	15 PTS	MISSING
AI surfaces verified-review businesses over competitors without it.		
Service Schemas	15 PTS • 16 SAMPLED	GOOD
Tells AI exactly what services you offer and where.		
Social Media Links	10 PTS	FOUND
4 social profiles linked from the homepage. AI uses these to verify your brand identity across platforms.		
Open Graph Description	10 PTS	FOUND
233 characters.		
HTTPS Secure	5 PTS	FOUND
Site is served over HTTPS.		
AI Citation Crawlers	15 PTS	GOOD
All citation bots allowed. ChatGPT, Perplexity, and Claude can fetch and cite your content.		
llms.txt File	10 PTS	FOUND
Tells LLMs which content to cite, in the emerging llmstxt.org standard.

02

SEO

A 95 / 100

How well your pages are set up for Google to understand. Page-1 Google rankings feed AI citations.

Title Tag 15 PTS

FOUND

51 characters. Title tag is set on the homepage.

Meta Description 15 PTS

FOUND

233 characters. Meta description is set on the homepage.

H1 Headline 15 PTS

GOOD

"Custom Websites That Get You Found by Google & AI-Search". Main headline is set on the homepage.

H2 / H3 Structure 10 PTS

PARTIAL

Some structure, but more H2s would help readers and AI.

Canonical Tag 10 PTS

FOUND

Tells Google which version is the official one.

Robots Meta + Sitemap 10 PTS

GOOD

Sitemap and robots.txt look healthy.

Internal Linking 15 PTS · 41 INTERNAL LINKS

GOOD

Strong internal-linking density across the homepage.

URL Structure 10 PTS

GOOD

ApexWeb360 scored 81/100 (B)
15-MIN WALKTHROUGH · FREE

03

Content

B82 / 100

Quality, depth, freshness, and internal structure of your content. AI platforms cite specific, useful pages.

Word Count / Depth15 PTS

PARTIAL

373 words. A little thin. Aim for 800+ words on the homepage.

Image Alt Text10 PTS

GOOD

All images have alt text.

Title Tag Length10 PTS

GOOD

51 characters. Fits Google's SERP width and won't truncate.

Meta Description Length10 PTS

NEEDS WORK

233 characters. Likely truncates. Google's SERP budget is roughly 160 characters on desktop, 120 on mobile.

H1 Count10 PTS

NEEDS WORK

3 H1. Multiple H1s scatter topical signal. Pick one and demote the rest to H2.

Placeholder Links10 PTS

GOOD

No placeholder links. Every anchor points somewhere real.

Service-Specific Pages25 PTS · 12 SAMPLED

GOOD

Each service has its own page. AI can cite them by query.

ApexWeb360 scored 81/100 (B)
15-MIN WALKTHROUGH • FREE

Service area pages found. AI can cite them for location-specific queries.

Blog / Educational Content 10 PTS • 8 FOUND GOOD
Educational content found. A major AI citation source.

04

Trust & Authority

F 57 / 100

Proof your business is real, established, and worth hiring. The signals AI uses to pick between two equally-ranked sites.

Years in Business / Founding Date 15 PTS MISSING
AI looks for a founding year in your website's data. When it's missing, you look new to AI, even if you've been around for years.

Google Business Profile 15 PTS FOUND
7 reviews on Google.

Google Review Strength 15 PTS PARTIAL
5-star, 7 on Google. Close to the buyer-decision threshold (10 reviews and 4 stars). A few more pushes you over.

Star Ratings in Search Results 15 PTS MISSING
Your homepage doesn't tell Google about your reviews. Without it, Google won't show star ratings in search results, even if your reviews are strong.

Named Expert Behind the Site 15 PTS FOUND
A named human is declared somewhere on the site (founder, author, team bio, or article byline).

Contact Info in Structured Data 15 PTS FOUND

ApexWeb360 scored 81/100 (B)
15-MIN WALKTHROUGH • FREE

About Page10 PTSMISSING

No About page detected. Buyers and AI both look for one to verify the business is real.

Contact Page10 PTSFOUND

Contact page found. Clear path to reach you.

05

Technical

A100 / 100

Behind-the-scenes signals that affect everything else. Crawlability, indexability, and structured cleanliness.

Indexability15 PTSFOUND

Site is fully indexable by Google and AI crawlers.

Sitemap.xml10 PTSFOUND

Sitemap is present and accessible at `/sitemap.xml`.

Robots.txt10 PTSFOUND

Present and reachable.

Crawlable Navigation15 PTSFOUND

Main nav uses real `<a>` tags, not JS-only links.

Mobile Rendering15 PTSFOUND

Viewport meta tag is set for mobile rendering.

Schema Validation15 PTSFOUND

27 nodes JSON-LD detected on the homepage.

ApexWeb360 scored 81/100 (B)
15-MIN WALKTHROUGH • FREE

Language Alternates (hreflang) 10 PTS FOUND

Not declared. Fine for single-language sites; required if you publish multiple language versions.

Favicon 5 PTS FOUND

Declared in HTML.

HSTS (HTTP Strict Transport Security) 10 PTS FOUND

HSTS header is set, so browsers always upgrade to HTTPS.

06 Performance D 61 / 100

Core Web Vitals (LCP, CLS, TBT). Google's actual ranking signals.

First Contentful Paint (FCP) 10 PTS POOR

3.9s on mobile. Target is under 1.8s. Defer non-critical resources or inline critical CSS.

Largest Contentful Paint (LCP) 25 PTS POOR

9.3s on mobile. Target is under 2.5s. Usually the hero image, font, or above-the-fold render-blocking script.

Total Blocking Time (TBT) 30 PTS GOOD

73ms. Under the 200ms target.

Cumulative Layout Shift (CLS) 25 PTS GOOD

0.004. Well under the 0.1 threshold.

Speed Index 10 PTS POOR

ApexWeb360 scored 81/100 (B)
